

PUBLICATIONS

Current and planned reports/information booklets/data/others to be published on ESB Networks' website in Q2 / Q3 2026

Publication Title	Objective	Mechanism	Timing
ESB Networks' response to the CRU Call for Evidence On the Conceptual Design for Energy Sharing and Multiple Supply Contracts 2025261	To provide ESB Networks' feedback to the designs put forward by the consultation paper.	ESB Networks' website	Q2 2026
Generator Connections Reporting	Ensuring consistently reported figures for Generator Connections to the electricity grid in Ireland to track delivery against CAP targets.	Monthly reporting directly with key stakeholders	Ongoing
Publishing of Contestable Specifications for the renewable industry	Sharing of technical knowledge with renewable customers to advance industries understanding of ESB Networks key construction requirements for renewable customer connections.	Publication on ESB Networks website and issued to specific customers with their site specific connection packs	Ongoing
Connected Renewable Statistics	Inform customers of generators connected (renewable) to the distribution system.	ESB Networks' website	Q1 to Q4 2026
Connected Non-Renewable Statistics	Inform customers of generators connected (non-renewable) to the distribution system.	ESB Networks' website	Q1 to Q4 2026
Contracted Renewable Statistics	Inform customers of generators contracted (renewable) to the distribution system.	ESB Networks' website	Q1 to Q4 2026
Contracted Non-Renewable Statistics	Inform customers of generators contracted (non-renewable) to the distribution system.	ESB Networks' website	Q1 to Q4 2026
ECP-GSS Batch 1	Inform industry of the generator applications to be processed by ESB Networks.	ESB Networks' website	Q2 2026
Rules for Application of DUoS Group	Review Rules for Application of DUoS Group and publish revised version.	ESB Networks' website	Q2 2026
Heat Map of available capacity	Provide an indication of available network capacity for new demand and generation customers.	Interactive map on ESB Networks' website, updated quarterly	Q2 2026
Environmental Performance Report	In line with the CRU licence requirements, this report provides the annual environmental performance updates to the CRU and relevant stakeholders.	ESB Networks' website and to the CRU	Q2 2026

PUBLICATIONS

Current and planned reports/information booklets/data/others to be published on ESB Networks' website in Q2 / Q3 2026

Publication Title	Objective	Mechanism	Timing
Response to ZEVI Draft EV Infrastructure Strategy 2026 - 2028	To provide ESB Networks' views in relation to the draft strategy and its development.	Publication	Q2 2026
Winter 2025 Resilience Plan Close Out Report	Following a Government Decision in the aftermath of Storm Éowyn, ESB Networks was tasked with developing an Enhanced Winter 2025 Grid Resilience Plan.	Publication on ESB Networks' website	Q2 2026
International Review Report	International review of utilities of decisions in the aftermath of severe weather events.	Publication on ESB Networks' website	Q2 2026
ECP-GSS Batch 2	Inform industry of the generator applications to be processed by ESB Networks.	ESB Networks' website	Q4 2026
Joint TSO and TAO Investment Planning and Delivery Final Report 2025	Final CRU Approval on TSO and TAO Investment Planning and Delivery.	ESB Networks' website	Q4 2026
ESB Networks Statement of Charges Tariff Year (TY) 2025 - 2026	To share the standard charges applicable to demand customers connecting to the distribution network.	ESB Networks' website	Q4 2026
Capacity Workbooks (Version 3) Demand	Provide an indication of available network capacity for demand connections for the next 5 -10 years (future capacity) based on current investment plans.	ESB Networks' website	Q4 2026
Capacity Workbooks (Version 3) Generation	Provide an indication of available network capacity for generation connections for the next 5 -10 years (future capacity) based on current investment plans.	ESB Networks' website	Q4 2026
Electricity Transmission Annual Performance Report 2025	Provides customers, industry, and stakeholders with clear and accessible reporting on our operation, development and maintenance of the transmission system throughout 2025.	ESB Networks' Website	Q4 2026
Draft Annual Transmission Investment Planning and Delivery Report	ESB Networks and EirGrid performance for 2025.	ESB Networks' website	Q4 2026
Stakeholder Newsletter	To provide regular updates and overview of engagement activities and opportunities between ESB Networks and stakeholders.	ESB Networks' website	Quarterly 2026
Market Message Owner's Guide (MMOG)	To provide specific points of contact and escalation point in relation to specific market processes. Available to suppliers via RMDS website	Ongoing communication at IGG regarding MMOG in 2026	Ongoing throughout 2026
